

The Wright Credit Union

In 1948, credit unions in America, and later around the world, began celebrating the philosophy and achievements of credit unions every year on the third Thursday in October. The theme for International Credit Union Day 2017 is

“Dreams Thrive Here”.

Unlike other financial institutions, credit unions are not-for-profit, so their primary purpose isn't to score record profits in order to cut distant shareholders bigger dividends checks. Rather, the primary purpose of credit unions is—and always has been—to be of service to their

members. That means you. We are here to help you achieve your goals in life.

This people-first philosophy doesn't just mean better service, it translates into a better financial deal for consumers. Credit unions, on average, offer higher rates of return on savings accounts, lower rates on loans, and fewer and lower fees than other financial institutions.

Join us on Thursday, October 19th in celebrating International Credit Union Day with door prizes and refreshments!
